

June 4 - August 9, 2012
Monday - Friday
(Closed July 4)

Consider a Christian environment for your child this summer that will not only be fun and adventurous, but will encourage good sportsmanship, leadership, and fitness. Each day includes field trips either on the premises or offsite. Science projects, games, and art are also included as part of our structured environment.

SUMMER ADVENTURE CAMP

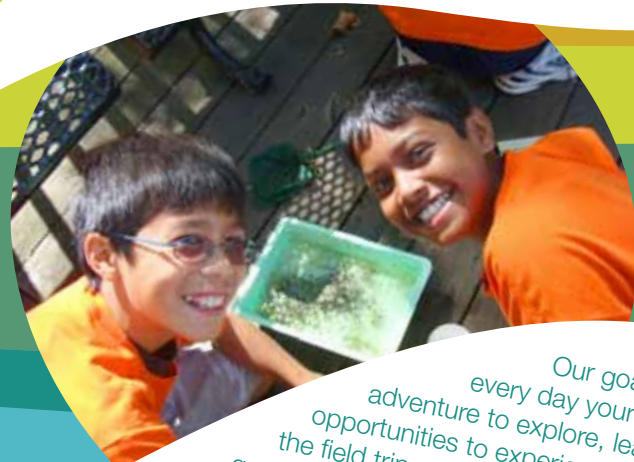

Our goal is to make every day your child attends an adventure to explore, learn, discover and have opportunities to experience something new! Many of the field trips are educational and challenging. Children generally learn best when they can experience things visually and hands-on. They'll be having so much fun, they won't even realize that they're learning!
